THE ESSENCE OF A WARRIOR

In the wilderness of the world life is sometimes brutal. To survive is to compete with all the creatures and dangers of the world. Far away from dining halls and tournaments exist the barbarians! Masters of savage combat yet more honest and true than any knight. For their mind is set on the ultimate goal, survival against all odds.

TO LEARN THE WAY

However great the barbarian warriors may be, their lives are often short. To find a teacher of the ways of the barbarian can prove hard. If you desire to seek such a warrior you must look where civilization has yet to reach, follow rumors of unbelievable feats and monsters slain and you may just find a true barbarian. (You need to match the skill level of the HA's the barbarian master offers. Each master knows up to 5 abilities, each ability takes a shift to learn and has to be rolled for with an advancement mark at the end of the session. Roll under highest melee weapon skill to succeed.)
